FOREWORD

Last year, as we used a new link road from the start, some helpful signs appeared suggesting a speed limit. Alas no one got near it due to heavy mist. So this year if weather permits-who knows!

Out time limit allows an average speed of 6-7 mph. So no hurry, but beware of going over your time. It starts to get dark about 7 so our course closing team will have you off the moors even if you do breakdown. Our very own AA, then to the pub.

Salute

Dennis

TRIAL HISTORY

Back in 1958 Reg Roberts a West Leeds member became disillusioned with riding small course events and dreamed of running a one lap long distance trial.

After over two years of planning, obtaining permissions, plotting sections etc the first event in 1961 known then as the Dancaster Trial was run as a West Yorkshire Group trial.

Having run two years successfully the event was upgraded to a Yorkshire Centre trial for the next ten events.

The club was keen to run the event as a national trial, but before that could take place the event had to run as a Regional Restricted for 3 years.

These 3 events were vetted by an ACU steward from each of the three invited Centres, who confirmed that the event was of a good enough standard to be run as a national, and so the White Rose was born.

Awarded a National status in 1976.
